AAMAS 2018: July 10-15, 2018 in Stockholm

AAMAS, the International Conference on Autonomous Agents and Multiagent Systems, is the leading scientific conference for research on autonomous agents and multiagent systems. The AAMAS conference series was initiated in 2002 by merging three highly respected meetings: the International Conference on Multi-Agent Systems (ICMAS), the International Workshop on Agent Theories, Architectures, and Languages (ATAL), and the International Conference on Autonomous Agents (AA). The aim of the joint conference is to provide a single, high-profile, internationally respected archival forum for scientific research on the theory and practice of autonomous agents and multiagent systems.

AAMAS 2018, the seventeenth conference in the AAMAS series, will be held July 10-15, 2018 in Stockholm as part of the Federated AI Conferences jointly with the International Joint Conference on Artificial Intelligence (IJCAI)/European Conference on Artificial Intelligence (ECAI), the International Conference on Machine Learning (ICML), the International Conference on Case-Based Reasoning (ICCBR), and the International Symposium on Combinatorial Search (SoCS). AAMAS 2018 seeks the submission of high-quality papers limited to 8 pages in length, with any additional pages containing only bibliographic references. Reviews will be double blind; authors must avoid including anything that can be used to identify them. Submitting an abstract is required before submitting a full paper. All work must be original, that is, must not have appeared in conference proceedings, books, or journals and may not be under review for other archival conferences, books, or journals. In addition to submissions in the main track, AAMAS 2018 will solicit papers in special tracks. The review process for the special tracks will be similar to the main track, but with program committee members specially selected for each track. All accepted papers for the special tracks will be included in the proceedings.

AAMAS 18 General Chairs: Elisabeth André (Universität Augsburg, Germany)
Sven Koenig (University of Southern California, USA)
AAMAS 18 Program Chairs: Mehdi Dastani (University of Utrecht, Netherlands)
Gita Sukthankar (University of Central Florida, USA)
AAMAS 18 Local Chair: Franziska Klügl (Örebro University, Sweden)

The full AAMAS 2018 Call for Papers, along with descriptions of the special tracks and all topics of interest, can be found at:
